

OC Core 1.3 / Mathematics Domain Packet

Status Snapshot

- Current state: `VALIDATED_ANCHOR_ACTIVE`
- Target state: `VALIDATED_ANCHOR_ACTIVE`
- Quantitative pass result: `PASS`
- Next required action: `MAINTAIN_REPLAY_DISCIPLINE`
- Replay status: `PASS_REPLAYABLE`

Theorem-to-Observable Map

- Pending explicit theorem-to-observable rows in the packet specification.

Benchmark Dataset Manifest

- Pending explicit benchmark dataset rows.

Measurable Outputs

- `epsilon_star`
- `minimal_denominator`
- `minimal_augmentation_rank`
- `component_fiber_count`
- `move_connectivity_or_degree_bound`
- `strict_terminalized_total`
- `counterexample_executed_total`
- `python_evidence_executed_total`

Measurement Schema

Replay declared mathematical packets deterministically against the strict closure ledger and counterexample traces.

Acceptance Criterion

No replay divergence and no surviving counterexample against the promoted packet.

Falsifier

A single replay divergence or surviving counterexample collapses promotion for the affected packet.

Replay Harness

- Replay command: `logion/k7/spe/orchestrator/science/run_claim_simulations_v1.py`
- Replay program status: `ACTIVE_REPLAY_LANE`
