

OC Core 1.3 / Mathematics Domain Packet

Status Snapshot

- Current state: VALIDATED_ANCHOR_ACTIVE
- Target state: VALIDATED_ANCHOR_ACTIVE
- Quantitative pass result: PASS
- Next required action: MAINTAIN_REPLAY_DISCIPLINE
- Replay status: PASS_REPLAYABLE

Theorem-to-Observable Map

- Pending explicit theorem-to-observable rows in the packet specification.

Benchmark Dataset Manifest

- Pending explicit benchmark dataset rows.

Pinned Official Route Protocol

- MATH_ROUTE_001: Clay Mathematics Institute (OFFICIAL_PROBLEM_CATALOG) -> <https://www.claymath.org/millennium-problems/> | purpose: Exact benchmark anchor catalog
- MATH_ROUTE_002: American Institute of Mathematics (OFFICIAL_PROBLEM_CATALOG) -> <https://aimath.org/problemlists/> | purpose: Supplementary exact-question corpus

Measurable Outputs

- epsilon_star
- minimal_denominator
- minimal_augmentation_rank
- component_fiber_count
- move_connectivity_or_degree_bound
- strict_terminalized_total
- counterexample_executed_total
- python_evidence_executed_total

Measurement Schema

Replay declared mathematical packets deterministically against the strict closure ledger and counterexample traces.

Acceptance Criterion

No replay divergence and no surviving counterexample against the promoted packet.

Falsifier

A single replay divergence or surviving counterexample collapses promotion for the affected packet.

Quantitative Acceptance Thresholds

- counterexample_survivor_total_max: 0
- replay_divergence_total_max: 0
- strict_terminalized_total_min: 31

Replay Harness

- Replay command: `logion/k7/spe/orchestrator/science/run_claim_simulations_v1.py`
- Replay program status: `ACTIVE_REPLAY_LANE`
- Execution protocol id: `OC13::EXECUTION::MATHEMATICS::ANCHOR_REPLAY`
- Evidence bar: `HYBRID_ESCALATION`

Institute-run Escalation

- Current escalation status: `NOT_REQUIRED`
- Escalation trigger: `ONLY_IF_DETERMINISTIC_REPLAY_BREAKS`
- Measurement wave id: `NONE`
- Measurement plan: Expand the exact-question corpus instead of broadening claims.

Blocking IDs

- None.
